Stingray's web site has become the talk of industry circles. That's because we have perhaps the most comprehensive web site in the industry. Beyond a few pictures and specifications, the site will immerse you in an interactive experience that will enable you to find most everything you need before you even step foot into a dealer showroom. From the privacy of your home, you can:

Visit Your Dealer's Showroom Anytime

Using your zip code, locate your nearest dealer and view their inventory to see if the boat you want is in stock. From an inventory listing, you can view their in-stock and on-order boats. Once you select a boat, the MSRP Sticker will be displayed, allowing you to calculate a monthly payment and request a quote from the dealer.

Obtain Pricing Online

If your local Stingray dealer does not have the boat that you are looking for, build your own using our online Build Boat with Pricing feature. Just enter your zip code, select a dealer, choose the model you're interested in, and pick an engine and

any desired options. We will calculate the manufacturer's suggested retail price and display a window sticker. From there, you can use our payment calculator to estimate a monthly payment and request a quote from the dealer you selected.

Get Help Choosing a Model

If you need a little help deciding which model is best for you, we have several features to assist you in your decision.

Articles and Reviews

Our library of third party articles and reviews is packed full of boat tests and reviews that cover almost an entire decade!

Performance Comparisons

For a head-to-head comparison against another boat that you may be considering, our Performance Comparisons compile the results from thousands of independent tests into a single database. Here you can select from almost any boat manufacturer to see how they compare to Stingray when it comes to speed and fuel economy. Performance Bulletins, tests from engine manufacturers, are also available.

Owner Testimonials

To hear what other Stingray owners have to say about their boats, visit Stingray Stories and read our owner testimonials.

Stingray

1979 - Stingray is founded by Al Fink with two molds and a handful of craftsmen.

1981 SVB 175

1980

1982

1984

1984 SVB 205

1985 - 1st boat company to use CAD driven CNC routers to produce production parts.

1986

1989 SVC 275

1989 - Z-plane hull is conceived and patented. Same year, robotics are introduced in lamination.

1988

1990 SVF 268

1991 - Stingray receives patent for Z-plane hull.

1990

1992

Stingray boat owners are in a class of their own when it comes to Internet technology. That's because every Stingray owner has their very own customizable web page where they can access information about their boat, communicate with other Stingray owners, receive personalized answers to their technical questions, and even update their online photo album at any time!

MyStingray.com is designed to provide you with personalized information about your boat, keep you apprised of the latest developments at Stingray, and offer you a communication portal where you can ask questions and make friends with other owners.

Access requires a username and password. The first time you visit, you will be asked to complete a simple form that includes entering your name, address, boat serial number, and a password. Once signed up, you will have access to:

My Boat Photos

Share your favorite boating photos with your friends and family. It's easy! Within minutes, you can create a personalized My Stingray photo album with your favorite boating pictures and stories. And, you will have your own web address to share with everyone!

Stingray Owner Forum

Have a question about your Stingray boat? Looking to find other Stingray owners in your area? Whether you are looking for an answer to a question, want to talk about boating, or find out how you can participate in a Stingray owner get-together, the Stingray owner forum is the place to be. Conversation ranges from simple chatter to in-depth technical discussions.

Frequently Asked Questions

If you have a technical question, you may submit it using our online submission form. Questions are answered by our technical staff and posted on your FAQ page.

Online Auction

The Stingray Online Auction is available for buying and selling Stingray parts. The auction site is limited to those affiliated with Stingray and owners of Stingray boats. Owners, dealers, and Stingray may offer items for auction.

Stingray Parts

You will have access to a parts list specific to your boat. Your parts list, containing a description and picture (most parts), is based on features that were included at the time of manufacture. A separate part of the list details optional items that are available.

Manuals and Technical Documents

A library of Stingray manuals, third party vendor manuals, wiring diagrams and other documents are available for viewing and printing.

Performance Calculator

Want to know how your boat should perform given specific variables? Input weight, horsepower, temperature, propeller type, and altitude to calculate the expected performance of your Stingray boat under many varying conditions.

Through the Years

1993 - 1st 5-axis CNC waterjet used to trim fiberglass parts.

1995 - 1st boat manufacturer to publish a marine web site.

1996 - 1st to introduce CNC flatbed waterjet machine technology for cutting flat goods.

1996 729zp

1998 - 1st to use environmentally friendly low VOC gelcoats and resins.

1999 - Leader in marine environmental recycling.

2001 200MS

1st V-6 powered boat to exceed 60 mph.

2004 195LR

2004 - 1st boat builder to achieve Mercury's Certified Manufacturer status.

2005 - Stingray celebrates 25 years of quality boat building.

Stingray & the Environment

Being a leader in technology is more than just a philosophy—it's a commitment designed to help ensure the preservation of our natural resources for generations to come. Here are a few things we're doing to help protect our ecosystem.

Fuel Efficiency

The performance and efficiency of our patented Z-plane hull, documented by third party reports, is unmatched. Better fuel efficiency translates into less fuel consumption but more importantly, less carbon dioxide emissions.

Waste Reduction / Recycling

Stingray has a recycling program for virtually every waste material including, but not limited to, cardboard, composites, aluminum, pallets, and metal drums. In cardboard alone, Stingray recycles over 163,000 pounds per year.

Committed

We want Stingray owners not only to have fun on the water, but also to know that they are helping to protect the environment at the same time.

Low VOC Gelcoats & Resins

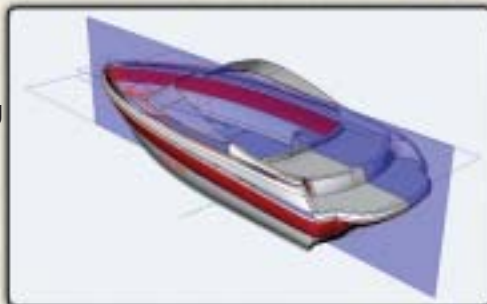

Stingray was the first boat manufacturer to convert to the use of low styrene laminating resins and gelcoats. The combination of these low VOC materials coupled with the latest in low pressure, high temperature spray equipment has reduced Stingray's VOC stack emissions by over 55%.

Fuel Surge Protectors

Every Stingray boat is equipped with a fuel surge protector, for venting the system through the fuel fill cap. This helps avoid refueling spills normally associated with external fuel vents. This system helps protect our lakes and streams.

Advanced Technology

For the past two decades, Stingray has pioneered many of the advances of technology in the boat building industry. Equipment and tools that were not available just a few years ago are now the mainstays that enable Stingray to achieve unparalleled precision and efficiency.

Computer Aided Design and Manufacturing

Every Stingray begins as a 3-dimensional computer model. We "build" the boat on-screen and carefully scrutinize each component for size and fit making all the necessary adjustments before we ever commit the design to fiberglass. We even use a virtual human to check for legroom and headroom and to be sure all of the controls are located comfortably within reach. The information from this 3-D model is then sent to the next step in the process: 3-D milling.

Multi-Axis 3-D Milling Machine

With information available from a 3-D computer model, milling machines can produce a full size model in a matter of hours—a task that would take weeks otherwise. With unequalled precision, the running surface of the hull is cut to the exact specifications. Our master craftsmen then provide the mirror finish that is a hallmark of Stingray quality.

Robotic Lamination Facility

Visitors to our plant are always impressed by its cleanliness and unique manufacturing systems. In our lamination building, a custom designed overhead tram system was specially developed just for Stingray. Parts under construction are moved about the plant under computer control. This system keeps track of our in-process fiberglass parts while optimizing mold usage and improving productivity. Process automation also increases worker safety, helps maximize efficiency, and improves quality.

Water Jet Cutting Machines

Many parts on a Stingray are cut using one of our high-pressure water jet machines. A stream of water no thicker than a human hair slices quickly and neatly through a variety of materials much easier than could be done by hand. Materials such as carpet, foam, vinyl, canvas, rubber, and fiberglass are quickly transformed into precision quality parts.

CNC Routers

Computerized numeric controlled routers are used to cut various sheet goods into high quality parts. The computer allows us to "nest" a group of parts efficiently to minimize waste. Because the process is computer controlled, each part is dimensionally identical from one run to the next, and can be finished much faster and more inexpensively than those produced by hand.

Protection Plan

Stingray backs every model it builds with a five year transferable protection plan. Also included is a limited three year osmosis warranty.

See your dealer for details or visit stingrayboats.com/warranty for the most up-to-date information.

Patented Z-Plane Hull

Stingray's patented Z-Plane hull is up to 30% more efficient than other boat hulls. Our boats run faster, corner better and get remarkably good gas mileage. That means you can enjoy your boat more for less operating cost. Visit StingrayBoats.com/performance to see how Stingray boats stack up against the competition.

Why Buy Stingray?

Based in Hartsville, South Carolina, Stingray is one of the most advanced boat building operations in the industry. Stingray has over 225,000 square feet of manufacturing facilities, located on 46 acres.

Independently Owned

Stingray is a privately held, family-owned business, representing one of the longest continual ownerships in the marine industry today! Stingray has been building quality runabouts since 1979 based on some very basic principles: innovation, craftsmanship and integrity. Because of our "independent" status, Stingray can react to changing market conditions in a much shorter cycle time than the larger corporate entities. This often leads to early recognition of shifts in consumer trends or demographics and thus designing products to meet those needs in a more proactive way.

Environmentally Responsible

Stingray uses only three-star rated, four-cycle engines, which are the cleanest and most fuel efficient available for marine use. Better fuel efficiency translates into less fuel consumption. Three-star engines can be four to ten times cleaner than two-cycle outboards, which means less pollution to our environment.

Value and Quality Driven

As one of the founding members of the American Boatbuilders Association (ABAbboats.com), Stingray is in excellent company with the likes of Chaparral, Cobalt, Correct Craft, Ebbtide, Formula, Grady-White, Monterey, Pursuit, Regal, Rinker, S2 Yachts, and Triton. This is another assurance that you are receiving the highest quality materials available at the best possible price. ABA members pool their expertise and resources to purchase only the best products and services available.

Safety Conscious

All Stingray boats are certified by the US Coast Guard, the National Marine Manufacturers Association, and the Consultants Europe (CE) organization. You can be assured that your Stingray meets or exceeds well respected industry standards!

In addition, Stingray is the first boat builder in the industry to receive Mercury Marine's exclusive manufacturer / installation certification. This intensive program is based on improving product quality throughout the build process.

180R

LOA: 18' 0" Beam: 85" Avg Weight (w/ 3.0L): 2,115 lbs Fuel Capacity: 21 gal

180RX

The 180RX proves that boating can still be affordable. This model is designed for the price-conscious boater who wants a reliable, great-performing, fuel efficient boat without having to mortgage the house.

You will find amenities that may not be present on similar priced boats. The 180RX is standard with power steering, XL sundeck interior with twin bucket seats, and premium 36-ounce vinyl with PreFixx stain protection and special foam backing for added comfort and resilience.

At 18 feet and just under 50 mph, depending on the number of passengers and gear, the 180RX is the largest and best performing boat in its class.

185L

LOA: 18' 5" Beam: 85" Avg Weight (w/ 3.0L): 2,155 lbs Fuel Capacity: 21 gal

185LS

185LX

The 185L is packed full of features seldom seen in a boat this size. You will find a sporty Dino Italian steering wheel, and a full array of backlit instruments, trimmed in a rich woodgrain, aluminum panel. The dash shroud has a low profile for optimal visibility. You'll find a digital hour meter and a 12-volt receptacle for cell phones, spotlights, or other accessories.

On the passenger side is a locking glove box, oversized drink holder, stainless grab handle, and a high-power radio/CD.

The X model sports two adjustable buckets with a full-width rear lounge and sunpad. The S version offers a driver's bucket, an adjustable back-to-back lounge and hi-lo jump seats.

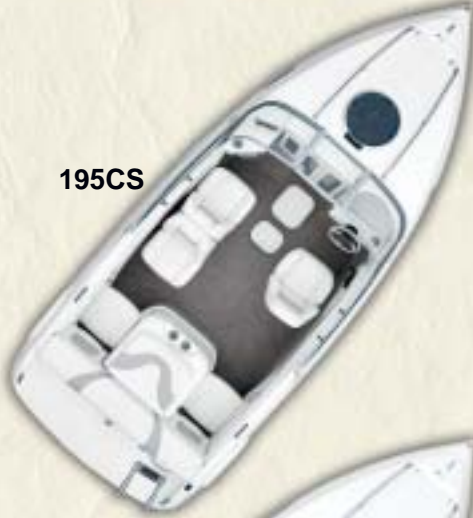

195c

LOA: 19' 6" Beam: 91" Avg Weight (w/ 4.3L): 2,642 lbs Fuel Capacity: 21 gal (3.0L), 35 gal

195CS

195CX

Brand new for 2005, the 195C models ride on our next-generation Z-Plane hull, which have extended running surfaces that deliver even better performance and handling than their predecessors.

Each model has a 3-panel cabin door for easy access. A sturdy stainless steel latch secures the cabin door. A screened aluminum deck hatch and port windows provide ventilation and open up the interior. A molded fiberglass liner, complete with a Porta-Potti, is well suited for overnighting for two adults.

The 195C models feature pop-up cleats, a recessed bow light, a more stylish dash and a larger swim platform. Other noteworthy standard features include bow anchor storage, in-floor ice chest, and premium foam-backed Nautolex 36 oz. vinyl with PreFixx. The helm comes with a full array of backlit instruments, including an engine hour meter, offset by a beautiful woodgrain trim package. It also sports a stylish Italian steering wheel and a 12-volt plug for powering accessories. Securely installed in the passenger console is a Kenwood Hi-Power audio system.

STINGRAY

195F

**195FX
Ski
Setup**

**195FX
Fish
Setup**

The two biggest pastimes on boats are fishing and skiing. Each has distinct differences, but we have succeeded in blending the two into one boat—the new FX Fish & Ski.

The FX is based off the 195LX bowrider, but has built-in features that allow you to tailor it to the watersport you prefer at the moment. It appears to be a conventional open bow ski boat in standard mode, but when you want to fish, the bow has a special center insert to accommodate a pedestal fishing seat. A second pedestal seat can be inserted in the aft section by lifting the rear sunpad to reveal a carpeted platform with built-in socket pedestal.

Beneath the sectionalized full-width aft bench seat is a large livewell with an aerator for keeping bait and fish fresh. On either side of it are easy to clean storage compartments. In the cockpit you'll find an integrated two-drawer tackle box to organize accessories.

Also, the 195FX deck is designed to accept an optional bow-mount trolling motor. A digital depth finder and compass are also available.

LOA: 19' 6" **Beam:** 91" **Avg Weight (w/ 4.3L):** 2,638 lbs **Fuel Capacity:** 21 gal (3.0L), 35 gal

195L

195LR

195LS

195LX

Supporting our next-generation Z-plane hull, the 195L models give you the sensation of riding on air. *Boating Life Magazine* (Jan. 2004) says, "Speaking of power, this is the first V-6 stern-drive we've tested that hits the 60-mile-per-hour barrier." Look as you will, but you're not likely to find a better performing, more fuel-efficient, family boat anywhere.

In addition to being a great performer, the 195L offers many creature comforts. Injection-molded helm seats with fore and aft adjusters, a well-cushioned bench, over-size drink holders, and a roomy contoured bow make everyone comfortable. The bow step not only makes front boarding safe and easy, but lift the step and you can pull out your favorite beverage from the integrated cooler. Hinged in-floor ski and wakeboard storage, pull-up bow and spring-line cleats, a recessed 3-step boarding ladder, courtesy lights, a high power Kenwood audio system with CD player and backlit gauges amid a rich wood trim aluminum dash are part of the package. The 195L models offer three configurations to choose from: a sun-deck and bench seat, sundeck and wrap-around seating, or a motorbox with hi-lo jump seats. You can't go wrong!

LOA: 19' 6" Beam: 91" Avg Weight (w/ 4.3L): 2,580 lbs Fuel Capacity: 21 gal (3.0L), 35 gal

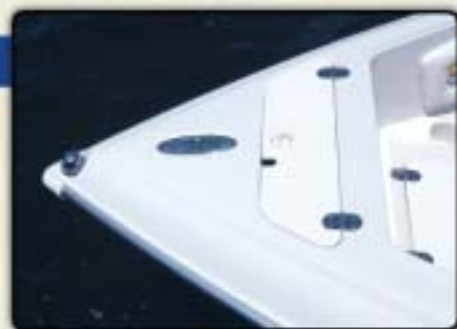

200L

LOA: 20' 3" Beam: 92" Avg Weight (w/ 5.0L): 2,720 lbs Fuel Capacity: 35 gal

200LS

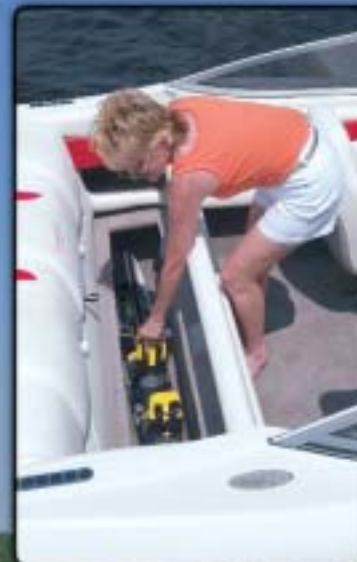

200LX

The midsize 200L is a perfect fit for many boaters—and their pocket-books. The open bow caters to passenger comfort with its reclined backrests and easy-to-reach insulated cooler. The cockpit is very accommodating too, offering a choice of LX or LS seating configurations to fit your preferences. Both models feature injection-molded helm seats with fore and aft adjusters. A hinged, in-floor ski / wakeboard locker with stainless steel gas shock allows accessories to be stored out of the way, yet close at hand.

The helm comes with a full array of backlit instruments, including an engine hour meter, offset by a beautiful woodgrain trim package. It also sports a stylish Italian steering wheel and a 12-volt plug for powering accessories. Securely installed in the passenger console is a Kenwood Hi-Power audio system.

Extras you'll find on the 200L include a high power CD player, tilt steering, 36-quart built-in insulated cooler, anchor locker, Sunbrella sport bimini top, and hull graphics package. All upholstery features 36-ounce Nautolex vinyl with PreFixx protectant for easy cleanup.

200c

LOA: 20' 3" Beam: 92" Avg Weight (w/ 4.3L): 2,827 lbs Fuel Capacity: 35 gal

200CS

200CX

The 200C—with its porta-potti, single burner butane stove, molded in freshwater sink, and v-berth for two—has all of the equipment to qualify for second-home tax deductions.

There are other freedoms too. Like the freedom to extend your boating experience through the night and into the next day; of not having to stay close to a land-based restroom; of preparing and eating meals onboard. Or what about the freedom to listen to your favorite music, thanks to the standard CD player. Or the freedom to bring your favorite beverage and someone else's, due to the 46-quart built-in cooler.

You might say the 200C is liberating. You can even throw your own tea party.

220c

LOA: 21' 6" Beam: 97" Avg Weight (w/ 5.0L): 3,143 lbs Fuel Capacity: 38 gal

220CS

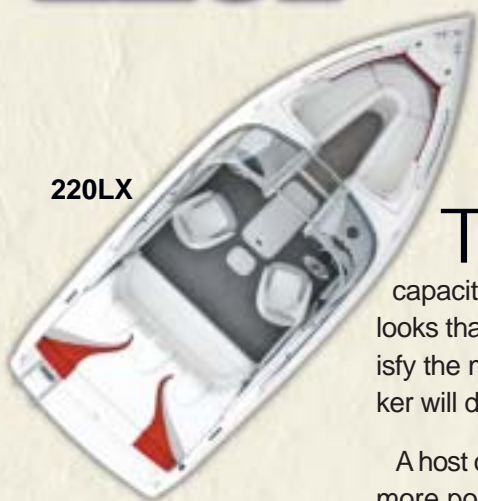

Big cuddy? Small cruiser? We'll let you decide. Regardless, the 220CS has what it takes to provide a great day and night on the water. The cabin has a plush, fiberglass V-berth and dual seats that can be converted to make a large, comfortable sleeping area. Twin port windows complement the large, aluminum deck hatch with screen to provide natural light and ventilation, while the bi-fold doors with smoked Lexan inserts provide easy access. Cleverly concealed, yet readily accessible, are a molded-in sink, butane stove and portable toilet. This added equipment can qualify the 220CS for second home tax status.

The large integrated swim platform, with its three-step stainless steel ladder and grab handles, makes it easy to participate in a variety of watersports. In the console area you will find tilt steering, a full complement of premium backlit gauges, including a digital hour meter and a 12-volt receptacle for phones, spotlights, or other accessories.

220L

220LX

The sleek, open bow 220LX has the performance of a sportboat, enough storage capacity to satisfy a pack rat, such striking good looks that it will make the meek vain, a price to satisfy the most practical, and a resale value any broker will drool over.

A host of standard features make the 220LX all the more popular. For instance, it comes with a sport bimini top, magnetic compass, sport buckets with flip-up bolsters, tilt-steering, and a hi-power CD player. The helm features twin sport dashes with a full complement of backlit, premium gauges, including an electronic hour meter. Additional space is available for adding personal items such as a GPS or VHF radio.

For easy access to your wakeboards and ski gear, the 220LX features a hinged, in-floor locker with a stainless steel gas-assist shock and latch. The 220LX, like all 2005 Stingray models, features premium 36 oz. Nautolex vinyl with PreFixx for easy cleanup.

LOA: 21' 6" Beam: 97" Avg Weight (w/ 5.0L): 3,004 lbs Fuel Capacity: 38 gal

220s

220SX

Stingray's SX series is your ticket to the high performance highway. The 220SX has a sleek profile and nimble performance. Riding on Stingray's unique Z-plane hull with its notched transom, this beauty literally glides over the water at full throttle and is capable of carving figure eights better than a chef does prime rib.

The 220SX does more than deliver outstanding performance, however. Beneath its racy deck lies a cabin with all the comforts of home. Fact is, with its standard features, it can qualify for second-home tax benefits.

The fiberglass cockpit liner has twin adjustable sport bucket seats equipped with flip-up bolsters and a contoured aft bench and sundeck with padded backrests. All upholstery features 36-ounce Nautolex vinyl with PreFixx protectant. A built-in ice chest and high power CD player are also standard features. An ergonomic dash houses a compass and a full array of gauges—the favorite of which will undoubtedly be the speedo. Go baby, go.

LOA: 21' 6" Beam: 97" Avg Weight (w/ 5.0L): 3,320 lbs Fuel Capacity: 38 gal

220D

220DR

Our 220DR deck boat is like a pontoon boat on steroids. It offers the room and utility benefits common on wide-body pontoon boats, but it rides on our patented Z-plane hull and comes with enough muscle to give it all-star performance.

Fore and aft boarding ladders are ideal for retrieving skiers and swimmers and make beach landings a breeze, while bow and transom shower/wash-downs facilitate easy cleanup. Multiple coolers, abundant seating, sunbathing filler cushions fore and aft, unbelievable storage space including a massive transom trunk and dedicated bow anchor locker, two table mounts (fore and aft), CD player with remote and recessed docking lights combine to make the 220DR a deck boat of celebrity status. It even comes with a built-in sink, an enclosed head compartment with a screened porthole and enough drink holders to keep an octopus happy. Good looks, a great build and unparalleled performance make the 220DR a champion on any lake.

LOA: 22' 3" Beam: 99" Avg Weight (w/ 5.0L): 3,811 lbs Fuel Capacity: 62 gal

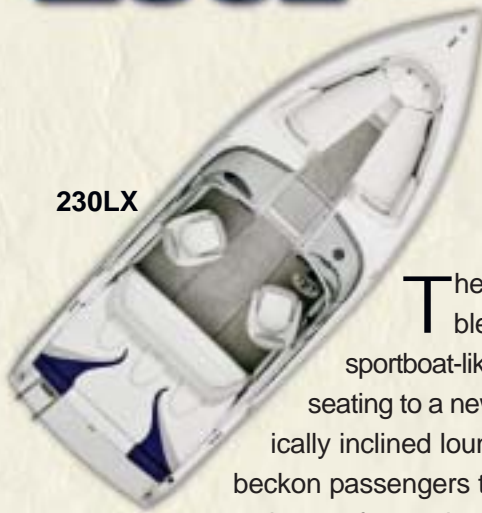

Shown with optional extended swim platform

230L

230LX

The 230LX is a bowrider with attitude. First, its blend of power and hull design guarantees sportboat-like performance. Second, it takes open bow seating to a new level of luxurious comfort with ergonomically inclined lounges and canted backrests that naturally beckon passengers to relax and enjoy the ride. Adding to the appeal are soft coaming pads with recessed stereo speakers and drink holders. Once you settle in you may not want to leave, so we even incorporated an ice chest beneath the forward entry step for added convenience.

The 230LX is also a looker. Contributing to its sleek appearance, the bow rails are mounted inside, the forward cleat is recessed, and the deck contour rises to absorb the rakish windshield so it looks integral rather than added on. Rounding out the 230LX's appeal is a host of standard features that include a compass, CD player, rich gray-wood inserts and sport buckets with flip-up bolsters.

LOA: 22' 8" Beam: 96" Avg Weight (w/ 5.7L): 3,224 lbs Fuel Capacity: 57 gal

230s

LOA: 22' 8" Beam: 96" Avg Weight (w/ 6.2L): 3,557 lbs Fuel Capacity: 57 gal

230SX

This is one hot sportboat! The 230SX is Stingray's leanest and meanest, with take-me-serious, big-block power options guaranteed to satisfy any throttle jockey's quest for an adrenaline rush. Although well-mannered thanks to Stingray's proven Z-plane hull, once you light the wick you'd better be pointed in the right direction.

Proof that performance doesn't have to be at the expense of comfort, the 230SX has a cabin that rivals that of a small cruiser. Its plush interior features adjustable lighting and a screened deck hatch, plus a concealed galley and head that is a marvel of computer design and manufacturing. All upholstery features 36-ounce Nautolex vinyl with PreFixx protectant.

With its fiberglass liner, large aft sundeck and flip-up bolster seats, the 230SX fulfills the needs of the most discriminating enthusiasts. It's amazing how a boat this hot can make its occupants look so cool. Sportboats just don't get any better than this. The 230SX. Feel the sting!

240L

LOA: 23' 6" Beam: 102" Avg Weight (w/ 5.0L): 3,993 lbs Fuel Capacity: 68 gal

240LR

The 240LR is made to handle big water with ease, and it incorporates so many cool features that it raises the fun factor to exponential levels. Things like a built-in refreshment center with a freshwater sink and removable 25-quart cooler. Opposite it is a built-in cooler for extra goodies. It even comes standard with an enclosed head with porta potti.

The 240LR is a big bowrider with overnight accommodations. Two can snooze comfortably on the aft U-shaped lounges when the filler cushions are in place. All upholstery features 36-ounce Nautolex vinyl with PreFixx protectant. Another special feature is the unique cockpit to swim platform access. Rather than waste space on a transom door and companionway, simply remove the center bench cushion and follow the series of integrated steps.

240CR

LOA: 23' 6" Beam: 102" Avg Weight (w/ 5.0L): 4,037 lbs Fuel Capacity: 68 gal

240CR

Have an itch for adventure? Why not let the 240CR scratch it. This trailerable cuddy cruiser can take you to new horizons in style.

The 240CR's spacious cockpit, with plush U-shaped seating and twin sport bucket seats with flip-up bolster, provide a perfect environment for cruising and socializing. Toss in the filler cushions to soak up some rays, or set up the cockpit table for snacks prepared at the refreshment center. And if you find that perfect beach, take the party ashore with the portable 25-qt. cooler and butane stove.

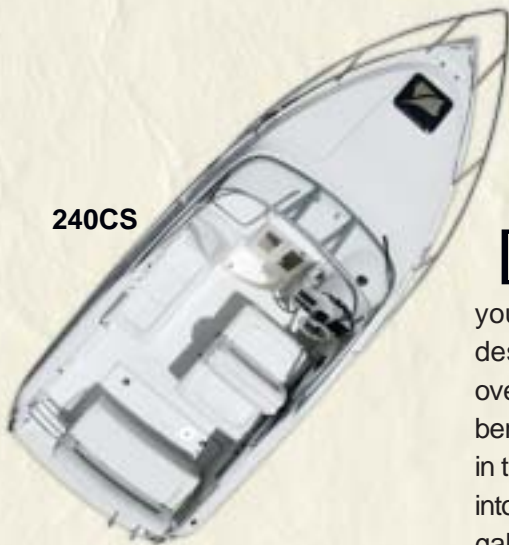

When you've ventured as far as you want, call it a day in the well-equipped cabin, which sleeps two. The rear cockpit lounge can accommodate two more, giving the 240CR 2+2 sleeping capacity. Other standard features include a porta potti, screened cabin port windows and aluminum deck hatch, transom shower, CD player with remote, and a compass to guide you home.

240cs

240CS

Do you hate for your day of boating to end? Then don't let it! The 240CS is your hotel afloat. Its luxurious cabin is designed to pamper you with plush overnight accommodations. There are two berths—one in the main cabin and another in the mid-cabin. The forward berth converts into a dinette to serve meals prepared at the galley, which consists of a stainless sink, icebox, alcohol stove and stylish cabinetry.

You also have the luxury of an enclosed head with a handheld shower and sink. For natural light and ventilation there are four screened port-holes, a mid-cabin window and a large deck hatch.

In the cockpit you're greeted with a wide back-to-back recliner at the helm, an aft-facing lounge to port, and a wide bench aft—all of which can be enclosed with an optional camper canvas package.

Whoever said 'all good things have to come to an end,' obviously didn't own a Stingray 240CS.

LOA: 23' 6" Beam: 102" Avg Weight (w/ 5.0L): 4,605 lbs Fuel Capacity: 68 gal

STINGRAY

250L

250LR

Stingray has a reputation for performance that spans 25 years! And on our 25th anniversary, we have designed a 250LR with styling and increased performance to match. We created an all new look with a "shear" line that sweeps from bow to stern and incorporates the logos amidships. It gives a feeling of momentum even when the boat is sitting still! Add a 320 hp Merc or Volvo and this fuel-efficient package is capable of speeds in the mid fifties. This is performance at its best! "Creature comforts" are equally important. Seating begins at the transom and continues into the cockpit to form a wrap-a-round settee. Add the easily stowed filler cushions to the bow or stern area, and in about a minute you are lounging on an oversize sunpad. For mom and kids, there is an enclosed head with dock-side pumpout. For easy cleanup, all upholstery features 36-ounce Nautolex vinyl with PreFixx protectant.

Time for snacks? Drop the table in place (bow or cockpit) for instant dining pleasure. A built-in refreshment center with freshwater sink allows you to rinse and store items. Two on-board coolers with overboard drains, along with a removable 25-quart cooler, will keep your beverages cold. Ready for a "dip in the water?" Step onto the integrated, oversize swim platform and jump in! It alternates as a place for conversation and dangling your feet in the water.

With the full canvas option, the 250LR provides tent-like accommodations that make it big enough for a young family or couple to overnight under the stars.

With sleek styling and patented performance, the 250LR truly represents the next generation of performance runabouts.

LOA: 25' 0" Beam: 102" Avg Weight (w/ 5.0L): 4,056 lbs Fuel Capacity: 68 gal

250c

250CR

Stingray's new 250CR exemplifies the next generation of proven performance hulls from Stingray with a new look—a look that has it reaching "warp" speed until you realize it is still sitting on the trailer. A walkaround reveals numerous features. The first to capture your eye will be the integrated extended swim platform. Extended may not be the right word for this spacious platform with its hide-a-way, three-step boarding ladder. It offers ample room for clamping on your favorite water toys or just relaxing with your "toes in the water." And, it incorporates Stingray's elevated swim platform storage center for ski-ropes, fenders, or dock lines—all within easy reach.

Styling did not end on the outside. The cabin features built-in storage cabinets, a pump-out head and a spacious v-berth for overnight occasions. And don't forget the wrap-a-round seating also converts to an oversized sunpad. A family of four will find that they can easily overnight with room to spare for the family dog!

With a built-in refreshment center, freshwater sink, storage throughout, a transom shower and more, this boat is one for the design books.

LOA: 25' 0" Beam: 102" Avg Weight (w/ 5.0L): 4,137 lbs Fuel Capacity: 68 gal

Propellers are an exchange up charge at time of order.

SS Props std. on Bravo 3 and 300HP and larger motors.

A Weights vary depending on installed options

* All boats that exceed 320hp must have option 11 (SS Thru Hull Exhaust) or option 55 (Captains Call) installed to achieve the maximum speeds shown in the Performance Options chart.

† Fuel capacity is 21 gal. with 3.0L, 35 gal. with 4.3L

CAUTION: At wide-open throttle (WOT) the propeller on your boat should not cause the engine to operate below the minimum RPM range published by the motor manufacturer. Running your boat at WOT below the recommended minimum RPM can cause serious damage to your motor that is not covered by warranty.

Specifications are subject to change at any time without notice or obligation. To avoid disappointment at the time of purchase please check with your Stingray Dealer for current information.

Performance data comes from factory testing, independent engine manufacturer testing or independent magazine testing. All boat speeds and propellers shown are to be used as guidelines only for general applications as boats and operating conditions will vary. The best propeller for specific boating needs can only be determined by performance testing by your dealer. Results on individual boats may vary depending on many factors, including driver, weather, altitude, load, condition of propeller, lower unit, and boat bottom. Matching of your boat and use conditions to the proper propeller by your dealer will make your boating experience more enjoyable and keep your engine running longer and stronger. Propellers used during testing are shown to be used as a guideline only and are not intended to be an absolute recommendation.

WARRANTY INFORMATION

All Stingray warranties are limited warranties within the meaning of Title 1 of the Federal Trade Commission Improvement Act. A full statement of coverage, terms, and conditions applying to the Stingray warranty has been furnished to all Stingray dealers. In addition, information is supplied with each new boat.

Please read carefully the terms and conditions provided in Stingray's Express Limited Warranty accompanying the sale of your boat. The actual length of warranty coverage for your boat may vary depending on the date of original manufacture and sale date of your boat.

ABOUT THIS BROCHURE

Only a partial list of standard equipment is shown, and some boats are shown with optional accessories. Styling, design, equipment, prices, colors, and construction are subject to change without notice or obligation. To avoid disappointment, please check with your Stingray dealer or visit **StingrayBoats.com** for the most current information at the time of purchase.
